

DOMINA PLUS - RACK CONVEYOR WASHING-UP

LTD821D

Electronic rack conveyor dishwasher - 12

TECHNICAL DATA:

Max productivity (basket/hour)	60-120
--------------------------------	--------

ADDITIONAL TECHNICAL DATA:

External dimensions - WxDxH (cm)	115x77x162
Hot water Power (kW)	22
Cold water Power (kW)	28,5
Cold water Power with regenerator (kW)	24,7
Washing pump capacity (lt/min)	750
Prewashing pump capacity (lt/min)	-
Water consumption rinsing (lt/hour)	6,55
Drying-power (kW)	6
Drying-fan capacity (m3/hour)	1400
Supply (N)	400V 3N 50Hz
Weight (kg)	240
Volume (m3)	2.3
Power (kW)	23

Savings on operational costs, great efficiency, hygiene, flexibility and total control: these are the dreams that come true with the highly advanced Domina Tetra and MonoRinse technology.

The IdroWash plus wash system with its constant flow spray arms insures the best absorbed power use without unuseful load waste. The washing cycle becomes quicker despite less powerful pumps, thus reducing energy consumption.
