Drop-in - Series Elegance - Hot Elements - Dry bain marie wells

Model: DDBM-211

Reference	
External dimensions (mm)	790 x 610 x 364
Cut-out dimensions (mm)	765 x 585
Capacity	2 GN 1/1
Power (W)	1200

General characteristics

- Hot bain Marie function by air static heat, specially designed to hold, display and distribute warm food presented on deep GN pans during service time.
- Heat produced by resistances protected by perforated shelves manufactured in stainless steel.
- Specially manufactured in high-quality stainless steel for intensive professional applications.
- Element suitable for applications that can not fill or drain the water constantly.
- Rounded Edge interior plate for easier cleaning operations.
- Access to the resistances by just removing the protections without need of tools.
- Easy to use analog thermostat for an easy and quick set temperature.
- Prepared for optional installation of a foodshield with light and heat that is easily fixed to the structure by means of threaded plates.
- 160 mm deep wells allow to place containers GN1/1 with maximum depth of 150 mm
- Special clamps in the sides that ensure a uniform fit and grip over the entire surface.
- Operating temperature for hot dry bain Marie well: from +30°C to +90°C.
- Operating voltage and frequency: 230V 1N 50/60Hz
