|--------------------------|------------------|
| Reference                |                  |
| Gas                      | R-134a           |
| External dimensions (mm) | 1115 x 610 x 558 |
| Cut-out dimensions (mm)  | 1090 x 585       |
| Capacity                 | 3 GN 1/1         |
| Power (W)                | 310              |

#### General characteristics

- Refrigerated top plate with cold unit included (Optionally elements can be supplied for connection to a remote refrigeration group.)
- Specially manufactured in high-quality stainless steel for intensive professional applications.
- Working surface recessed 10 mm below counter top.
- Control panel with intuitive digital control which allows temperature parameters to be adjusted easily and luminous start-stop light button.
- Tray with automatic evaporation of condensing water.
- Prepared for optional installation of a light foodshield, easily mounted on the structure by means of threaded plates.
- Static cooling made by pressed copper coil in the base of the plate isolated by CFC free, high density (40 kg/m<sup>3</sup>) polyurethane insulation, injected under high pressure.
- Special clamps in the sides that ensure a uniform fit and grip over the entire surface.
- Rounded Edge interior and ½" Drain Valve in the bottom plate for easier cleaning operations. A connection from the drain to the sanitation network is compulsory.
- Operating temperature for refrigerated top plate (in climate Class IV conditions): 0°C to +8°C Versions with 2 refrigerant gases:
  - - R134a Hydrofluorocarbon (HFC).
  - - R600a Hydrocarbon (HC)
- Operating voltage and frequency: 230V 1N 50 Hz.
